AMS Students Participate In Pretest

Students at Appomattox Middle School participated in a pretest on September 20. This test was the first part of an evaluation of the Career Guidance Program financed with Title IV-C funds. Students taking the test in September will take the test again in May and they should show an improvement in test scores. This test and the post test help teachers, counselors, and administrators to identify weak points in the career guidance program so that steps can be taken to improve the quality of guidance that students receive relative to self-understanding and career information.

If any person is interested in knowing more about the Career Guidance Program at Appomattox Middle School or at Appomattox County High School, they may call any of the guidance counselors at the respective school.
